Description

The wide JUMBO Pro Classic step ladder is an essential tool for professional craftsmen. This step ladder is designed with a focus on stability and safety. The 8 cm wide aluminium steps ensure a comfortable and secure ascent and descent, even during long working days. The ladder features a large platform measuring 25x65 cm, providing ample space and stability for your tasks. The sturdy hinge joints further enhance the ladder's robustness and durability.

The side rails, which form the backbone of the ladder, are made from a highly stable special profile, ensuring that the ladder can withstand heavy loads without losing its shape. Additionally, the rails are anodised, which means they won't leave dirty fingerprints - a small but significant detail that ensures a professional appearance on the job site.

Whether you are working on construction projects, renovations, or installations, this step ladder will meet your expectations and provide you with a safe and stable work environment.

Specifications:

Wide steps: 8 cm aluminium

Detail Images

Big, plan platform

Foldable spreader locks for space-saving storage and easy transport

Ergonomically designed 8 cm wide aluminium steps.

Highest sidepiece stability against buckling due to the special profile. Sidepieces are also anodized - no dirty fingers!
