## Description

The JUMBO Scaffolding Pro Single Tower is a professional and flexible aluminium scaffold, specifically designed for 2 m planking. This scaffold is ideal for professional craftsmen who require stability and flexibility in their daily tasks.

2 m planking: Maximum height to the first platform is 3.40 m, and the distance between subsequent platforms is 2.25 m, making it suitable for tasks that require precise working levels.

The scaffold is constructed with fully welded joints on all frames, ensuring additional strength and stability during use. Diagonal braces and guardrails are equipped with high-impact, fully cast claws, which also feature fully welded joints, providing extra robustness.

The platforms are made from waterproof, non-slip Finnish birch plywood, mounted in strong aluminium frames. The platforms feature staggered hooks, allowing for extension without displacement, and are secured with a patented storm lock underneath, providing extra safety.

As standard, JUMBO Scaffolding comes with Ø125 mm castors with brakes. The castors are coated with polyurethane, ensuri

## Detail Images

Non-slip platforms equipped with staggered hooks, which makes lengthwise extension without displacement possible

Placed at each end under the platform, the patented storm locks are used to secure the platform to the scaffold

Fully welded frames

High-impact self-locking claws on all horizontal braces and diagonals (tube dimensions: Ø50x2mm). The claws are cast solid quality with fully welded joints.

## The set consists of

2 STK	12074100	Frame 1 m	2 STK	12074101	Guardrail frame narrow 1 m
3 STK	12074200	Frame 2 m	2 STK	1001781	Platform w/hatch
9 STK	1101780	Horizontal brace	4 STK	1102500	Horizontal brace / diagonal
1 STK	katalog/avis	JUMBO 2024 product brochure	1 STK	mont-RULLE	Assembly instructions Rolling scaffold
8 STK	FLB-1	Toeboard clip	4 STK	1400125	Castor w/brakes
10 STK	1600100	Safety clips
