Description

This hinge is specifically designed for use with the construction site fence gate module 35BH003 and is an essential component of the JUMBO construction site fencing system. The hinge ensures that the gate operates correctly and reliably, providing secure and efficient access control on construction sites, festivals, and other temporary fencing areas.

When used with the door module 35BH003, the hinge integrates seamlessly into the fence structure, ensuring stability and longevity. This hinge is made from high-quality materials that can withstand the harsh conditions of construction sites and outdoor environments.

Application: For construction site fencing.
