Description

This closing fence is designed with a robust galvanised finish, providing long-lasting durability and excellent protection against corrosion. It is ideal for use at cycling races, festivals, and other events where temporary fencing is required.

The fence is easily assembled using the hook/eye system and can be mounted in either concrete blocks 35BH100 or rubber blocks 35BH101. This flexibility makes the fence suitable for various types of terrain and surfaces, ensuring a stable and secure barrier.

Specifications:

Tube dimension: Horizontal Ø30x1.5 mm, vertical Ø42x1.5 mm
Wire thickness: Horizontal 4 mm, vertical 4 mm
Mesh size: 100x300 mm
Dimensions: 3.5 x 1.20 m
This closing fence is a reliable and robust solution that meets the needs for both safety and durability in temporary fencing app
