Description

This outrigger is designed to provide additional stability and security for JUMBO construction site fences. The outrigger is ideal for use in areas where there is a need for extra protection against tipping, such as places with high winds or uneven terrain.

Using the outrigger ensures that the fence stands firmly and securely, which is essential for maintaining safety on construction sites, at festivals, and other temporary fencing areas. The outrigger comes with a stake to ensure optimal anchoring and stabilisation.

Specifications:

Components: 1 outrigger + 1 stake
Application: For stabilising JUMBO construction site fences
This outrigger is a reliable solution for securing your construction site fence against tipping and enhancing safety under challenging conditions.
