## Description

The JUMBO Pro Telescopic Ladder is a professional-grade telescopic ladder designed to be both compact and easy to transport. Made from durable 6061 aluminium, the same alloy used in the aerospace industry, this ladder is exceptionally strong yet lightweight. The anodised aluminium finish prevents dirty hands during use, and the 55 mm wide ergonomic rungs provide comfortable and secure climbing. The ladder is equipped with a telescopic foot that extends for added stability, making it ideal for inspection tasks and daily use.

The optimal inspection ladder: Perfect for inspection tasks requiring a compact and stable ladder.  
Ultra-compact transport dimensions: Minimal footprint when folded, making it easy to transport.  
Fits in any car boot: Its compact size allows it to be stored in almost any car boot.  
Ideal for daily transport: Easy to carry and perfect for professionals on the move.  
When the foot is retracted, the ladder takes up minimal space, making it easy to store in any car boot. This ladder is the perfect solution for professionals needing a reliable and easily portable ladder.
