Description

The single JUMBO Pro Classic step ladder is the ideal choice for craftsmen who need a compact yet sturdy solution for smaller tasks. The step ladder features 2 ergonomically designed steps that are 8 cm wide, ensuring a comfortable and secure ascent and descent. The wide aluminium steps, combined with a large platform measuring 25.5x50 cm, provide a stable and secure working surface, regardless of the task at hand.

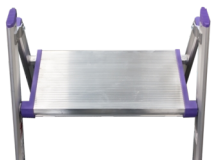

The side rails are made from a highly stable special profile, which not only adds extra strength but is also anodised to prevent visible fingerprints. This ensures that the step ladder remains presentable even after frequent use. With a transport height of only 13 cm, the ladder takes up minimal space, making it easy to transport and store.

Whether you are working on installations, repairs, or maintenance, this step ladder is a reliable choice that combines functionality and ease of use.

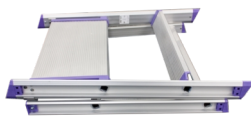

Specifications:

2 steps: 8 cm wide aluminium steps
