Description

The JUMBO Pro Dual Extension Ladder is a robust and secure solution for professionals who demand high stability and ease of use from their equipment. The ladder features sturdy aluminium side rails and 35 mm wide rungs, ensuring solid and comfortable climbing. The self-locking click mechanism adds extra safety, while the included stabiliser bar provides additional stability during use. For easier extension, the top section is equipped with rollers. This extension ladder meets the requirements of the EN131-Professional standard when used with the stabiliser bar.

NOTE: To comply with the setup of extension ladders according to EN131-Professional, it is recommended to choose the ladder with the stabiliser bar included.
