Description

This Pro Fibreglass Step Ladder is the ideal choice for professionals who require a reliable and safe ladder for their work. Made from fibreglass, this ladder combines lightweight design with high strength, making it easy to handle and durable in use. It is specifically designed for electrical work, complying with CEI EN50528 standards, meaning it is safe to use for tasks involving up to 1000V AC and 1500V DC. With its durable construction and ergonomic design, this step ladder offers both comfort and safety, making it an indispensable tool for electricians and other tradespeople.
