Description

This blue scaffold net is ideal for light screening of scaffolding on construction sites. The net prevents small items such as tools or building materials from falling off the edge of the scaffold, enhancing safety for both workers and passersby. It is made of wind-permeable material, allowing wind to pass through without compromising the net's stability.

The net can be easily secured with JUMBO Binder Wire 21NBT040 or strips 21NBT100, making installation quick and simple. With dimensions of 3.20 x 100 m and a weight of 32 g/m², this scaffold net covers a large area while being lightweight and manageable.
