## Description

The JUMBO Super Pro Combination Ladder is a versatile and robust ladder designed for professional craftsmen who need a ladder that can adapt to various tasks. The ladder is extra wide at 51.5 cm, providing additional stability during use. Made from 6005-T6 aluminium, it combines strength with a lightweight design, making it easy to handle.

This 2-part combination ladder can be used as both an extension ladder and a step ladder, making it a flexible tool for various types of work. The ladder features 38 mm ergonomically angled, non-slip rungs that provide a flat and secure standing surface. The anodised rails and rungs prevent dirty hands and ensure a long lifespan.

The ladder is also equipped with nylon bushings in aluminium brackets, which, along with the heavy-duty top wheels, make height adjustment quick and easy. For added safety, there is a self-locking aluminium click lock that secures the ladder in the desired position. The ladder foot with solid, non-slip feet ensures extra stability, regardless of how the ladder is used.

# Detail Images

Combi-bracket makes it possible to use the ladder as a step ladder. Nylon fittings in aluminium mounts for fast & easy extension

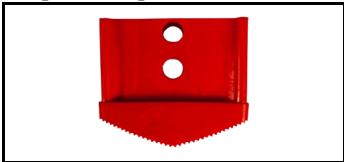

Durable top wheel for fast & easy extension

Anodized aluminium steps and sidepieces - no dirty fingers!
