Description

This Pro Fibreglass Extension Ladder is ideal for professional tradesmen who demand both strength and safety from their equipment. Made from fibreglass, this ladder is both lightweight and durable, while also being resistant to electrical currents. This makes it particularly suitable for electrical work, as it complies with CEI EN50528 standards, meaning it can be used for tasks up to 1000V AC and 1500V DC. With its sturdy construction and convenient rope-operated extension system, this ladder is perfect for tasks that require both height and stability.
