Description

This ring bolt is designed to be used with the JUMBO Fixing Cramp 26GS1089 for securely anchoring scaffolding to walls. The ring bolt has dimensions of M8x50mm and features a machine thread, ensuring a strong and reliable attachment. The electro-galvanised finish provides enhanced corrosion protection, making it ideal for outdoor use in various weather conditions. This product is a key component in maintaining the safety and stability of scaffold construction.
