Description

JUMBO Multi Guardrail is designed to be mounted directly on the roof crown, providing a safe and stable barrier on roofs. The quick installation with key at the top of the railing ensures easy and efficient setup.

Technical specifications:

Height: 1.10 m
Span: Up to 0.9 m
Material: Steel

The guardrail is made of durable steel for longevity and robustness, ideal for both temporary and permanent installations on construction sites or other places where safety is crucial.
