Description

JUMBO-Safe is a practical railing system specifically designed for flat roofs. This set, made from aluminium, spans 48 meters and is equipped with hinged base plates, allowing each base plate to be tilted up for tasks such as laying roofing felt without needing to move the entire railing.

Technical Specifications:

Material: Aluminium

Set size: 48 meters

Feature: Hinged base plates that can be tilted up

NOTE:

The standard set comes with ballast bags to be filled with sand. Concrete blocks shown in the photo are optional and can be purchased separately.

The JUMBO-Safe set with hinged base plates is a reliable and flexible solution for securing work areas on flat roofs. The light
