Description

The JUMBO Super Pro Dual Extension Ladder is designed for the professional craftsman who needs a reliable and durable ladder for daily use. Made from 6005-T6 aluminium, this ladder combines strength with lightweight, making it both robust and easy to handle.

The ladder features 38 mm ergonomically angled, non-slip rungs that provide a flat and secure standing surface, allowing you to work comfortably and safely at height. The anodised rails and rungs prevent dirty hands, while the heavy-duty top wheels and nylon bushings in aluminium brackets make height adjustment quick and easy.

For added safety, the extension ladder is equipped with a self-locking aluminium click lock, ensuring the ladder stays in the desired position. Additionally, the ladder comes with a ladder foot with solid, non-slip feet, enhancing stability and safety during use.

Detail Images

Anodized aluminium steps and sidepieces - no dirty fingers!

38mm ergonomic, angled & non-skid steps, for a plane and safe standing ground

Comes with base stabilizer with sturdy, nonskid, high-impact feet.
