

Building fence Coupler

Safety coupler

Specifications

Weight: 0.44 kg

Product no.	DBNumber	EAN Code	Jumbo Brand	Warranty	Net Weight
35BH102	5741579			1 years	0.44 kg

Description

The safety coupler is an essential component for assembling and securing JUMBO construction site fences. This coupler ensures that fence modules are held firmly and stably in place, providing a secure and reliable barrier on construction sites, at festivals, and other temporary fencing areas.

For additional security, Special Coupler 35BH111 can be used, offering further protection against unauthorized access and tampering. The couplers are easy to install and ensure a robust and stable connection between fence modules.

Specifications:

Model: Standard safety coupler for JUMBO construction site fences

Alternative: Special Coupler 35BH111 for enhanced security

This safety coupler is a reliable solution for securing your construction site fence, and it can be easily upgraded for increased protection as needed.
