## Description

The Wing Span is an essential accessory for your ladder, providing extra stability and a better working distance from the wall. This accessory easily attaches to the ladder and is specifically designed to prevent the ladder rails from resting directly against the wall, which can be impractical in many working situations. The Wing Span ensures you can work more safely and efficiently, particularly when you need to protect wall surfaces or achieve a better working position.

## Detail Images

Gives your ladder extra width and is ideal when working around windows, rain gutters, bushes, overhangs and other obstacles.
