Description

The JUMBO Giant Telescopic Plank is a versatile solution that allows you to convert your Giant multi-use ladder into a small, practical scaffold. By detaching the outer sections from your ladder and assembling them with a set of hinges (models 41LG212 or 41LG480) into a separate step ladder, the telescopic plank can be mounted between the step ladders. This creates a stable platform, enabling you to work efficiently and safely at height.
