Description

JUMBO-Safe is a practical railing system specifically designed for flat roofs. The system ensures effective barrier and protection, making it ideal for both temporary and permanent installations on flat roofs. Made from aluminium, JUMBO-Safe is both lightweight and durable.

Technical Specifications:

Material: Aluminium

Set size: 48 meters

Installation: Supplied with ballast bags to be filled with sand

NOTE:

The standard set comes with ballast bags to be filled with sand. Concrete blocks shown in the photo are optional and can be purchased separately.

The JUMBO-Safe set is a reliable and flexible solution for securing work areas on flat roofs. The lightweight aluminium constru
