Description

This heavy-duty base jack is designed to provide stability and flexibility in your scaffolding setup. Made from hot-dip galvanised steel, it ensures long-lasting durability and resistance to corrosion. The base jack has a total height of 65 cm and an adjustable height of up to 50 cm, making it suitable for various working conditions.

The spindle features a rolled ball thread, allowing for quick and precise adjustments, while being easy to clean. The swivel foot adds extra flexibility and ensures a secure footing.
