Description

The JUMBO Scaffold Trailer is the ideal solution for the safe and efficient transport of your aluminium facade scaffold. The trailer is specially equipped with stands, a box, and straps to ensure that your scaffold is securely fastened during transport. It also includes a convenient jockey wheel, making it easier to manoeuvre the trailer when it is not attached to a vehicle. With a maximum total load of 750 kg (note that the trailer's weight of 150 kg must be subtracted), this trailer can handle a significant amount of scaffold equipment. This trailer is an indispensable tool for anyone who frequently transports scaffolding, ensuring that your equipment arrives safely at the job site.
