Description

The JUMBO Super Pro 3-Part Combination Ladder is a versatile and robust ladder, ideal for professional craftsmen who need a ladder that can adapt to various tasks. With a width of 51.5 cm, this ladder provides increased stability and safety during use. Made from 6005-T6 aluminium, the ladder offers a combination of strength and lightweight properties, making it easy to handle and transport.

This 3-part combination ladder can be used as both an extension ladder and a step ladder, making it a flexible tool for a wide range of tasks. The 38 mm ergonomically angled, non-slip rungs ensure a flat and secure standing surface, while the anodised rails and rungs prevent dirty hands and extend the ladder's lifespan.

Nylon bushings in aluminium brackets, along with heavy-duty top wheels, make height adjustment quick and easy in extension ladder mode. For added safety, the ladder is equipped with a self-locking aluminium click lock that secures the ladder in the desired position. Finally, the ladder comes with a ladder foot featuring solid, non-slip feet, ensuring extra stability, no matter how the ladder is used.

Detail Images

Combi-bracket makes it possible to use the ladder as a step ladder. Nylon fittings in aluminium mounts for fast & easy extension

Durable top wheel for fast & easy extension

Anodized aluminium steps and sidepieces - no dirty fingers!
