Description

The JUMBO Super Pro Dual Extension Ladder w/Rope is designed for professional craftsmen who need a robust and reliable ladder for demanding tasks. This ladder is extra wide at 51.5 cm, providing increased stability and safety during use. Made from 6005-T6 aluminium, the ladder combines strength with lightweight properties, making it easy to handle and transport.

The ladder features 38 mm ergonomically angled, non-slip rungs that ensure a flat and secure standing surface. The anodised rails and rungs prevent dirty hands and extend the ladder's lifespan. For easy height adjustment, the ladder is equipped with heavy-duty top wheels and nylon bushings in aluminium brackets, allowing for quick and efficient extension.

The integrated pulley system with rope makes it easy to raise and lower the ladder, allowing precise adjustment to the task at hand. For added stability and safety, the ladder comes with a ladder foot featuring non-slip, durable feet.

Note: To comply with EN131-Professional standards, choose extension ladders with the included ladder foot.

Detail Images

Anodized aluminium steps and sidepieces - no dirty fingers!

38mm ergonomic, angled & non-skid steps, for a plane and safe standing ground

Comes with base stabilizer with sturdy, nonskid, high-impact feet.

Block and tackle system with rope for easy & effective extension
