Description

The Giant Telescopic Multi-use Ladder Classic "Velocity" is a versatile and durable ladder designed for professionals who demand reliability and flexibility in their equipment. Made from high-strength aluminium, it is both strong and corrosion-resistant while remaining lightweight and easy to handle.

Key Features:

Quad-Lock™ hinge: This smart handle system makes it easy to operate the hinge lock, ensuring stability and flexibility in ladder use.

Angled rungs: Provide an ergonomically correct working position, with a rung width of 25 mm in single-rung mode and 80 mm when the outer and inner ladder rungs align.

Rapid Lock® rotary lock: Allows quick and secure adjustment of the ladder length, making transitions between different ladder configurations simple and efficient.

Robust stabilisers: Can be mounted on one side of the ladder for extra stability and safety, meeting the requirements for professional use of extension ladders.

Detail Images

Extra durable hinge with 4-point Quad-Lock™

Angled steps ensure a plane standing ground. Single step width 25 mm - when steps on the inner and outer ladder are in line the total step width is 80 mm.

Constructed from high strength aluminium with great corrosion resistance - gives a strong and sturdy yet light ladder

Palm button system makes it easy to adjust the hinge. Just push straight in on each button and open the ladder to the desired position!
