Description

The Giant Platform Ladder "Safety Cage" is designed for professionals who require a combination of safety, stability, and mobility in their equipment. This platform ladder is made from fibreglass composite, ensuring that it is lightweight, strong, and non-conductive, making it ideal for work near electrical installations.

Key Features:

- Large platform: 52 x 45 cm, providing a stable and secure base.
- Self-locking safety rails: Create a solid handrail all around, with hand and knee rails.
- Toe boards: Enhance safety and comfort during extended tasks.
- Sound signal: Built into the bottom rung, alerts you when nearing the base of the ladder.
- Fixed wheels: Automatically lock when the ladder is loaded, ensuring stability.
- Transport wheels: Can be unfolded for easy movement of the folded ladder.
- Fold-out stabilisers: Improve stability on uneven surfaces.

Detail Images

Large sturdy platform 52 x 45 cm, with toeboards for extra security & comfort during extended worktasks.

Very sturdy railing with top guardrail and midspan bar.

Safety Cage, with automatic gates, allows operators to work hands-free in any direction in complete safety.

With Ground Cue® bottomrung signal. The Ground Cue signals the user when it is safe to dismount the ladder.
