Description

This modular window cleaning ladder is designed for professional window cleaners who require maximum flexibility and robustness in their work. The ladder is made of aluminium with exceptionally stable side rails in a strong special profile, ensuring long-lasting durability and high safety.

The ladder consists of three sections: base section, middle section, and top section, which can be easily assembled and disassembled without the use of tools. This makes the ladder particularly suitable for transport and use during a busy workday where flexibility is crucial.

With practical top wheels and a shock-absorbing rubber tip, the ladder is designed to protect facades and buildings when placed. The 100 cm wide ladder foot provides extra stability and safety during work.

The 8 cm deep, angled steps provide a comfortable and ergonomically correct standing surface, reducing strain during prolonged tasks. The ladder's anodised side rails prevent black smudging on your hands.
