

Pro Single Towers w/mounting Platform

305 x 74 cm | 4.2 / 6.2 m

EN1004 PRO 10 YEAR WARRANTY

Specifications

Working Height: 6.2 m
Standing Height: 4.2 m
Scaffolding Class: 3.0
Length: 305 cm
Width: 74 cm
Weight: 122.12 kg
Material: Aluminium, Veneer
Colour: Grey
Castor Size: Ø12,5 cm
Certification: EN1004
Jumbo Brand: PRO SCAFFOLDS

Description

The JUMBO Scaffolding Pro Single Towers is a professional aluminium scaffold, specifically designed for 4 m planking. It is ideal for craftsmen who require a flexible and strong scaffold for larger construction and maintenance tasks.

4 m planking: Maximum height to the first platform is 4.40 m, with a distance of up to 4.00 m between subsequent platforms, making it perfect for working at elevated heights.

The scaffold's frames feature fully welded joints, ensuring additional strength and stability during use. Diagonal braces and guardrails are equipped with high-impact, fully cast claws at each end, providing added durability and robustness. The fully cast claws guarantee that the joints remain strong over time.

The platforms are made from waterproof, non-slip Finnish birch plywood, mounted in strong aluminium frames. The staggered hooks on the platforms allow for lengthwise extension without displacement. Underneath the platforms, a patented storm lock secures the decks, preventing movement during adverse weather conditions.

As standard, JUMBO Scaffolding is supplied with extra sturdy Ø125 mm castors with brakes, ensuring easy and safe mobility.

Detail Images

Non-slip platforms equipped with staggered hooks, which makes lengthwise extension without displacement possible

Placed at each end under the platform, the patented storm locks are used to secure the platform to the scaffold

Fully welded frames

High-impact self-locking claws on all horizontal braces and diagonals (tube dimensions: Ø50x2mm). The claws are cast solid quality with fully welded joints.

The set consists of

3 PCS | 12074200
