Description

The JUMBO Scaffolding Pro Double Towers AGR is a professional-grade aluminium scaffold, perfect for craftsmen who require high quality and flexibility in their work. This set is specially configured for 2 m planking, with a maximum height to the first platform of 3.40 m and a distance of 2.25 m between subsequent platforms.

The scaffold is equipped with AGR (Advanced Guardrail) guardrails featuring built-in diagonal bracing, which adds extra stability and safety during use. The AGR guardrails are made with high-impact claws from fibreglass-reinforced plastic, ensuring a strong and reliable structure.

2m planking: Max. height to the first platform is 3.40 m and max. 2.25 m between following platforms.

Materials: The frames are made of aluminium with fully welded joints for added strength and stability.

The scaffold decks are made from waterproof, non-slip Finnish birch plywood, mounted in strong aluminium frames. The staggered hooks on the decks allow for lengthwise extension without displacement. Additionally, the platforms are secured with a patented storm lock underneath, providing safety during windy conditions.

JUMBO Scaffolding is supplied as standard with extra sturdy Ø125 mm castors with brakes. The castors feature a durable pol
