Description

THIS IS A SPECIAL PRODUCT. The Combiflex Railing Frame (backrest) for JUMBO Combiflex is designed to mount a complete railing with a single product, including integrated diagonal bracing for the scaffold. JUMBO Combiflex is a robust facade scaffold made from hot-dip galvanized high-quality steel, combining high strength with low weight. The scaffold can be constructed at any angle, 360 degrees around, with up to 8 components at each node. The integrated diagonal bracing speeds up assembly and disassembly.
