Description

These outriggers are designed to ensure maximum stability for your JUMBO Folding and Rolling Scaffold, especially when the scaffold is used at heights over 6 metres. They are easily installed without the need for tools, making setup quick and hassle-free. To achieve the required stability and safety, 4 outriggers must always be used. With these outriggers, you can work safely on your scaffold even at higher elevations, and they are an essential part of your setup to meet safety standards.
