Description

This rubble chute is designed for efficient disposal of construction waste from scaffolding. Made of durable plastic material, it ensures long-lasting durability and resistance to the harsh conditions of construction sites. The chute is supplied with chains for easy and secure mounting, ensuring stable and reliable waste management.

With a length of 110 cm, this rubble chute is ideal for various construction projects. Additional accessories, such as a metal wear insert for particularly sharp or coarse waste and inserts for top or side loading, can be purchased separately. This makes the chute versatile and adaptable to different needs on the construction site.

Specifications:

- Material: Durable plastic
- Length: 110 cm
- Mounting: Supplied with chains
- Accessories: Metal wear insert, top or side loading inserts (sold separately)
