Description

This swivel arm is specifically designed for the base-mounted Electric Winch 38GEDA1286 and is mounted above the winch to ensure optimal functionality. The swivel arm allows the wire to be fed up through it, enabling the winch to be operated from the ground. This creates a safe and efficient work process, giving the hook the necessary distance from the scaffold. The robust construction of the swivel arm ensures durability and reliability, making it ideal for daily use on construction sites.

Specifications:

- Compatible with base-mounted Electric Winch 38GEDA1286
 - Allows operation of the winch from the ground
 - Provides distance between the hook and the scaffold
 - Robust and durable construction
 - Perfect for safe and efficient work processes
- NOTE: THIS IS A SPECIAL PRODUCT.
