Description

This foldable 130 cm bracket is designed with a spigot and is suitable for the JUMBO Facade Scaffold. The bracket allows for the extension of the scaffold platform, while its foldable design makes it easy to store and transport. The foldable feature allows for quick adjustments to the scaffold according to different work needs. It's important to remember to use a safety coupler to ensure the bracket stays securely in place during use. This bracket is a versatile and practical solution for those needing additional workspace and safety on their scaffold.
