Description

This extra-strong bracket is specifically designed for the JUMBO Superflex Facade Scaffold and comes equipped with horns for easy railing installation. The bracket extends the platform width, providing additional workspace and safety on the scaffold. Manufactured with a tube dimension of Ø50 x 4 mm, this bracket ensures a robust and stable construction, ideal for demanding tasks. The JUMBO Superflex Facade Scaffold is renowned for its strength and reliability, and this bracket is no exception. It is easy to install and offers a durable solution when you need to extend the scaffold platform.
